## How much did your property tax increase?

Lyme will spend about 4% more this year. If assessments had been unchanged (or if your assessment stayed the same relative to everyone else), you would have expected to see a 4% tax increase. To see how you fared, enter your street name to see the tax paid and the amount and percentage increase (or decrease) from 2020. For more information, see [What can I do?](#) above.
